BAHRAIN AND MANAMA CITY (9781553411246)

Product description

The Middle East is not only one of the focal points of world political attention, it is a rapidly developing business and touristic centre as well. Our version of this interesting island sheikdom divides the sheet into two equal halves, one with a detailed map of the entire territory, and the other concentrating on the capital city of Manama. As with all of ITMB's Middle Eastern series, this map is extremely detailed and not only up to date but showing projected developments well into the future. This small but strategic country is developing very quickly and, to the best of my knowledge, there is no up to date map of Bahrain, apart from this.
