## CHILE - LAMINATED 1/ 1 770 000 (9781771291668)

### Product description

Chile is an interesting country to visit. We have explored the central portion and I'd love to drive the Austral, the roadway pushed through the southern Andes several years ago. This, to me, creates the essence of off-the-beaten-path travel. This third edition improves font size and adds a large inset map of Quito to the map. As was the case previously, it is printed on durable waterproof paper. Please note that the ISBN prefix has changed; we have run out of available numbers for the previous one.

Map size: 27\*39"

This map is also available in digital format for \$39.95 (per file) and flat map for \$39.95 (per side). Please contact [map@itmb.com](mailto:map@itmb.com) if you would want to place an order or for more information.
